A Special Moment

This year my family took a vacation to Hawaii. It was so cool! In case you do not know, Hawaii is this really long chain of islands in the Pacific Ocean. They are very green and beautiful. The ocean is a beautiful blue color. There is a lot to do in Hawaii, such as shopping or swimming or taking pictures of the beautiful scenery. Or you can just walk on the beach and watch the sunset. It is so beautiful! The colors are amazing! You see all these different shades of blue. While we were in Hawaii, my Aunt Beth went swimming with the dolphins. You have to go to a special place to do this. One of the dolphins was named Dolly. She was very friendly. We have a picture of them together, and it is so cool. That was a special moment. If you get a chance to go to Hawaii, be sure you do it! It takes a while to get there. (Well, that depends on where you live, of course!) You will not forget it! It is a beautiful place.
